*"Thank you dear
Republican Party for the
360,000 men sent to die
fighting against their own
brothers to free total
strangers." Mason Weaver*

Mason Weaver, founder of Mason Media Company and author of *"It's OK to leave the Plantation,"* announced his annual National Celebration to thank the Republican Party for ending slavery and giving us the national celebration known as "Juneteenth!" Mason Weaver said,

"We owe so much to those who came before us. It is for their struggles and sacrifices we celebrate their victory. From the tears and misery they endured, we gain our strength. In honor of all who struggled and died, in memory of all who resisted and suffered, for those who lived a life not worth living to preserve life for us... we give thanks to strangers whom stood with us and for us. The Republican Party."

The Republican Party was founded by men and women tired of living in a country where one man could hold another man captive. It was clear to the Republican Party that **"No one is free until all are free!"** Black Americans must never forget the sacrifice for justice represented by the Republican Party. We must never allow the nation to forget what they stood for and what they stood against.

♦ The **Republican Party** stood for Dred Scott ; the **Democratic Party** stood for the Missouri Compromise.

♦ The **Republican Party** gave us the Underground Railroad; the **Democratic Party** gave us the Fugitive Slave Act.

♦ The **Republican Party** gave us the Civil War, the **Democratic Party** gave us the Black Codes.

♦ The **Republican Party** gave us "Brown vs Board of Education"; the **Democratic Party** gave us Separate but Equal.

It was the Republicans who organized the Safe Houses and set forth the Emancipation Proclamation. It was also the Republican led army who marched into Galveston, Texas in 1865 to free the slaves on that first Juneteenth.

Thank you dear Republican Party for the 360,000 men sent to die fighting against their own brothers to free total strangers.
